

Welcome to Almasiha Meditour

Medical Tourism

Medical Tourism is where people who live in one country travel to another country to receive medical, dental and surgical care while at the same time receiving equal to or greater care than they would have in their own country, and are traveling for medical care because of affordability, better access to care or a higher level of quality of care.

Medical Tourism in India

Medical Tourism in India is one of the booming segments owing to the presence of specialized professionals, advanced infrastructure, highly sophisticated medical equipment and fractional cost of medical treatment and healthcare facilities when compared to other advanced countries with similar resources. Medical travel in India offer a range of services which include cardiovascular , IVF, Orthopaedic, Laparoscopic surgery, Coronary Artery Bypass Surgery, Neuro and Spine Surgery among others.

How much can you save?

Using US \$ costs across a variety of specialties and procedures as a benchmark, average range of savings for the most-traveled destinations
